## 8-Port 10G Combo PON/GPON OLT

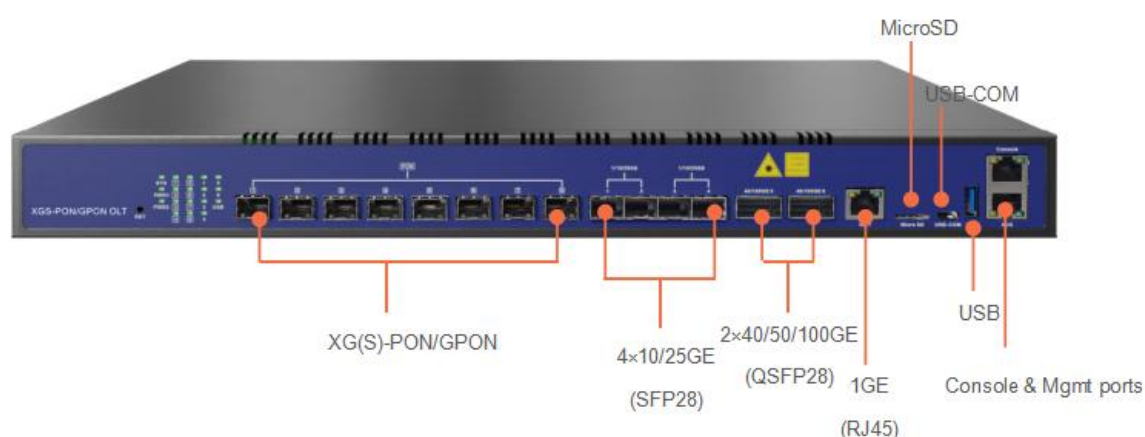

## Product Overview

OP1608XGS is an innovative 10G GPON OLT product with 8 PON ports and XG (S) - PON&GPON Combo compatibility, and also supports single GPON mode, giving customers more networking possibilities and facilitating customers to flexibly choose the appropriate bandwidth access mode according to current application conditions and future business upgrades. In the early stage of construction, customers can choose to consider reducing investment costs and switch any of the 8 PONs to single GPON mode, and then switch to XG(S)-PON&GPON Combo mode according to business needs in the future; they can also choose the smooth upgrade from GPON to XG(S)-PON, and switch to XG(S)-PON&GPON Combo mode in the early stage, considering the stability of the original business during future upgrades. OP1608XGS provides 1\*GE (RJ45) + 4\*25GE (SFP28) + 2\*100GE (QSFP28) uplink ports to achieve full-speed data forwarding and meet the needs of high-bandwidth, high-speed data transmission and large-scale deployment.
